Safe Communities Foundation New Zealand Strategic Framework

safe communities foundation nz

Our outcome

Communities in New Zealand are safe, vibrant, resilient and connected
He haumaru, hihiri, manahau me hono hapori i roto i Aotearoa

Our impacts

Inspiration
Active collaboration with communities, people and organisations

Intervention
Ensure systems support the adoption of safer behaviours and environments

Innovation
Enabling participation of community and organisations to work effectively in reducing injury

Progress towards impacts

Support communities capability and impact in identifying high risk injury areas (focus on what is important)

Mentoring to create efficient coordination of community efforts for more effective impact

Strengthen communities capacity and capabilities to mobilise actions

Community evaluation to demonstrate contribution in reducing injury

Our service activities and interventions (outputs)

Identify risk
Raise awareness of injury burden and promote Safe Communities model by:

- linking and mapping of current programmes – prioritising high risk areas
- linking Safe Community activities to national priority areas
- provision of relevant injury data to communities

Collaboration
Support, encourage communities to build their safety capacity and gain accreditation by:

- strategic advice on coordination and alignment
- minimise duplication of effort
- maximise opportunities to collaborate
- Strategic engagements with key stakeholders

Capacity Building
Mentoring Safe Communities to support development of safety capability by:

- improvement of resources with active dissemination.
- conducting national forum, regional meetings, Webinars, social media & E-news, website.
- Lead national population indicator framework development

Assessment
Assess best practice in Safe Communities by:

- Pan Pacific Safe Community Network international accreditation standards
- Encourage on-going review of injury data and evaluation of programmes, processes and effects of change
- Annual governance analysis
