## Suicide Prevention:

General Facts and Figures; Sources and Resources; Common Strategies

## **General Facts and Figures:**

- Every year approximately 500 people take their own lives with many more attempting suicide or experiencing levels of distress that places them at high risk of suicide.
- On average around three-quarters of suicides are male.
- The highest rate of suicide in 2012 was the youth age group (15-24 years) at 23.4 per 100,000 youths.
- Over the 10 years 2003 to 2012, Maori suicide rates have been at least 1.2 times non-Maori suicide rates.
- There were 3031 intentional self-harm hospitalisations in 2012. Two-thirds of these were female. Youth (15-24 years) accounted for 34.7% (1052)
- Maori accounted for nearly 20% (563) of ALL intentional self-harm hospitalisations in 2012
